

Luciano Sclovsky

iOS Tech Lead & Mobile Architect

luciano.sky@gmail.com | +55 51 98114-3323 | linkedin.com/in/luciano-sclovsky | github.com/lucianosky

PROFESSIONAL SUMMARY

Senior iOS Engineer and Mobile Architect with 15+ years of experience delivering high-impact mobile products across fintech, edtech, healthtech, and enterprise. Proven track record leading iOS teams of 3–5 engineers and managing organizations of 40+ as CTO. Deep expertise in Swift, SwiftUI, UIKit, and modern iOS architectures (MVVM, Clean Architecture, MVVM-C, TCA). 3+ years of fully remote experience in English-speaking international teams across Canada, the US, and beyond.

TECHNICAL SKILLS

Platform: iOS, macOS, Mobile Development

Languages: Swift, Objective-C, Python, JavaScript, TypeScript

Frameworks & APIs: SwiftUI, UIKit, View Code, Combine, Swift Concurrency (async/await), RealityKit, ARKit, AVFoundation, CoreML, CoreData, WebKit

Architecture: MVVM, MVVM-C, Clean Architecture, MVC, TCA (The Composable Architecture), Modular Architecture, Dependency Injection

Testing: XCTest, XCUITest, Appium, Unit Testing, UI Testing

Tools & DevOps: Xcode, TestFlight, App Store Connect, Git, GitHub, CocoaPods, Swift Package Manager (SPM), Fastlane, Jenkins, CI/CD, Jira

Methodology: Agile, Scrum, Kanban

Backend Integration: REST API, Supabase, Core Data, NoSQL, Firebase

Cross-Platform & Standards: React Native, Accessibility, Design Systems

WORK EXPERIENCE

Freelance iOS Developer — Confidential Client (via Techflow)

Apr 2026 – Present

iOS app built from scratch for a Brazilian commercial client

- Architecting and developing a short-form video player app from scratch using a custom modular Clean Architecture framework (Brew).

DBServices — Senior iOS Engineer

Jun 2025 – Feb 2026 | Fully remote, English-speaking international team

Brazilian software consultancy, 500+ engineers

- Reviewed architecture and codebase of a Fintech iOS app (Telus client) to align with current App Store compliance requirements.
- Developed key features for Fox One streaming service app (News Corp / Telus).
- Implemented user flows for McClatchy white-label news app (Telus media partner) serving 33 US local newspapers, including The Miami Herald.

BairesDev — Senior iOS Engineer

Nov 2023 – Jan 2025 | Fully remote, English-speaking international team

Global software development company, 4,000+ engineers — clients include Fortune 500 companies

- Drove codebase modernization for ViaPath's ConnectNetwork app — a platform enabling communication and money transfers from families to incarcerated individuals.
- Executed Objective-C to Swift migration, enabling sustainable iOS development on a legacy codebase.
- Introduced unit testing and UI testing from scratch — the app had no automated tests prior to this engagement.

Hefesto — Senior iOS Developer

Oct 2022 – Sep 2023 | Remote

Brazilian MedTech startup — 3D scanning solutions for custom prosthetics and orthopedics

- Solved a novel 3D capture problem for broken limbs: created a reliable scanning method for custom plastic orthosis production, replacing traditional plaster casts.
- Built an iOS app using Apple LiDAR to capture depth-aware images for 3D reconstruction. App Store approved.
- Developed a companion macOS app to run photogrammetry sessions, converting iOS photos into full 3D models.
- Solution validated in beta with real medical professionals in a clinical laboratory setting.

RVezy — Senior iOS Developer

Mar 2022 – Sep 2022 | Fully remote, English-speaking international team

Canadian RV rental marketplace startup

- Refactored critical modules of the RVezy iOS app, improving maintainability and performance.
- Introduced protocol-based architecture, unit testing, and UI testing. Contributed to CI/CD pipeline.

Zup (client: Banco Itaú) — Senior iOS Developer

Nov 2020 – Mar 2022 | Fully remote

Brazilian tech company, 1,500+ employees — allocated to Banco Itaú, the largest bank in Latin America

- Engineered features for the Banco Itaú credit card iOS app — one of the most widely used banking apps in South America, with 1M+ active users.
- Achieved full iOS feature parity with Android in the credit recovery squad, eliminating a long-standing platform gap.
- Fully rebuilt the debt renegotiation flow, enabling overdue users to negotiate payments and restore credit access.

+A Educação — Mobile Architect

Jul 2019 – Oct 2020

Brazilian edtech company, subsidiary of Grupo A — one of the largest educational publishers in Latin America

- Conceived and led development of the Consulta +Rápida by Artmed platform: two medical content apps (clinical and psychiatric) serving healthcare professionals.
- Designed a multi-app platform architecture including backend, database, and a custom content indexing engine.
- Collaborated directly with C-level executives, doctors, and cross-functional product and engineering teams.

Zallpy — Senior iOS Developer

Jan 2019 – Jul 2019

Brazilian software consultancy — client: Unicred, major Brazilian credit union

- Led design and development of Unicred's digital relationship app using MVVM-C architecture (enterprise distribution).
- Implemented offline data capture (text and images) with automatic sync on reconnect — ensuring continuous functionality in low-connectivity scenarios.
- Maintained high unit test coverage throughout development.

SoftDesign — Senior iOS Developer (Lead)

Jun 2017 – Dec 2018

Brazilian software consultancy, 300+ employees

- **Ticket Log (nationwide fleet management):** iOS lead developer and architect for two companion apps — for drivers and fleet managers — with ~20,000 users. Implemented custom map rendering for optimized routing and navigation.
- **Sicredi (banking):** Contributed to a major credit union banking app within a 12-person iOS team allocated at the client's office.
- **Cross-platform:** Delivered a React Native app for an agritech startup.

PREVIOUS EXPERIENCE (1999–2016)

- **Freelance (2016–2017):** Backend and frontend development (Java, Python, PHP, Angular 2) for multiple startups and enterprise clients.
- **DB (2014–2016):** Mobile architect and tech lead for Nota Fiscal Gaúcha (RS state government iOS app). Python and Ansible for HPE DevOps product.
- **NTConsult (2013–2014):** Developer and architect for indoor tracking system and retail service layer.
- **NeoGrid (2012–2013):** Lead developer for internal billing system.
- **Freelance (2011):** 2 published iOS apps on the App Store.
- **Pure Bros (2006–2010):** CTO. Introduced Agile practices to the company. Led the team that turned Pure Bros into the national leader in mobile VAS (Value Added Services) integration services in Brazil.
- **Dell Computer (2005–2006):** Software Engineer. Created the global software reuse program; responsible for the Software Engineering tools area.
- **RBS Direkt & GoDigital (acq. by Acxiom) (2001–2004):** Consultant and Product Manager. Database marketing, business intelligence, and data quality projects.
- **Dell Computer (1999–2001):** Test Engineer. Trained in Austin, TX, and implemented Dell's first computer factory in Brazil.

PERSONAL PROJECTS

Doppio — iOS Coffee Guide App

Personal project, 2023 – Present | In public beta

- Coffee guide app for Porto Alegre, built end-to-end: Swift, SwiftUI, Combine, async/await, Supabase backend.
- In public beta — well received by coffee shop owners, baristas, and coffee enthusiasts in early testing.

EDUCATION

- **UFRGS** — Academic Master's Degree in Computer Science
- **UFRGS** — Bachelor's Degree in Computer Science
- **ESPM** — Executive MBA in Marketing
- **Escola Livre** — NLP Trainer and Master Practitioner

LANGUAGES

- **Portuguese:** Native
- **English:** Fluent — TOEFL and Michigan certified; lived and worked in Austin and Houston, TX
- **Italian:** Basic (lived in Rome)
- **Spanish:** Basic

COMMUNITY

- **iOS Track Coordinator, TheDevConf (TDC)** — 5 editions across Porto Alegre, Florianópolis, and São Paulo (2018–2019)
- **Visual Thinking Track Coordinator, TheDevConf (TDC)** — 2 editions (Porto Alegre and Florianópolis, 2018–2019)
- **Speaker & Organizing Committee Member, TheDevConf (TDC)**
- **Co-organizer, Porto Alegre CocoaHeads**
